

**Brookline Fire  
Department  
Board of Fire Engineers  
Po Box 660  
Brookline, New Hampshire 03033**

Minutes  
Board of Fire Engineers  
Monday, March 11, 2019

- The meeting was called to order at 7:00 pm.
- Board of Fire Engineers members Dave Santuccio, Dave Flannery and Dave Joki, as well as Chief Corey were present.
- February minutes were read and accepted.
- 2019 Budget is going according to schedule.
- We will have the boiler pumped after Town Meeting.
- A discussion was held on personnel and getting more people trained on becoming drivers and pump operators.
- After Town Meeting we will buy the electric ram for 5R2. Last big item we have to purchase is a new air compressor for filling our air bottles. We will be looking into a flat load for large diameter hose. We will also be replacing gear as it gets out of date.
- Dave Joki reported on the work necessary to fix up the antiques for 250<sup>th</sup> parade.
- No new information on Bingham's cistern.
- We investigated either buying a new boiler or a holding tank with a system for disposing of water generated by washing our dirty gear. We are leaning towards going with a new boiler.
- We have installed the regulator on the fire horn. Waiting for Lee Lemoine to get some new parts to finish fixing it.
- Signing of bills
- Meeting adjourned at 8:30 pm, and next meeting will be held on April 8, 2019 at 7:00 pm.

Respectfully submitted,

Charles E. Corey Sr.
