TAP Right-of-Way Payment to Gary and Lisa Proulx

Tad said he provided a memo to the Board in the non-public folder with background information. He said TAP projects require temporary construction easements and payments to all abutters. He said the **Proulx** have not been supporters of the project, but have agreed to terms with a \$2,000 payment for a temporary construction easement and they will use the money to contract with Meridian to place property bound(s) along their property line with the project area, so the line is well-defined during construction. Tad said with this payment the project's right-of-way payments will total \$5,000, which is one-half of the \$10,000 budgeted for the project. *Dana moved, seconded by Ed, to approve a \$2,000 TAP Right-of-Way payment to Gary and Lisa Proulx of 6 Potanipo Hill Road; Roll call vote Yes 5-0.*
